# COMPANY LEADERSHIP

Welcome to BTI GROUP - The leading multinational corporation in multi-platform blockchain technology development. As experts in this field, we aim to lead the technology revolution by providing pioneering and breakthrough solutions based on blockchain technology to customers and businesses around the world.

The leadership of BTI GROUP is a unique blend of leaders with excellent technical backgrounds and a deep understanding of the cryptocurrency industry. From guiding development strategy to promoting innovation and future orientation, we will continually steer BTI GROUP with a clear vision and the determination to overcome all challenges.

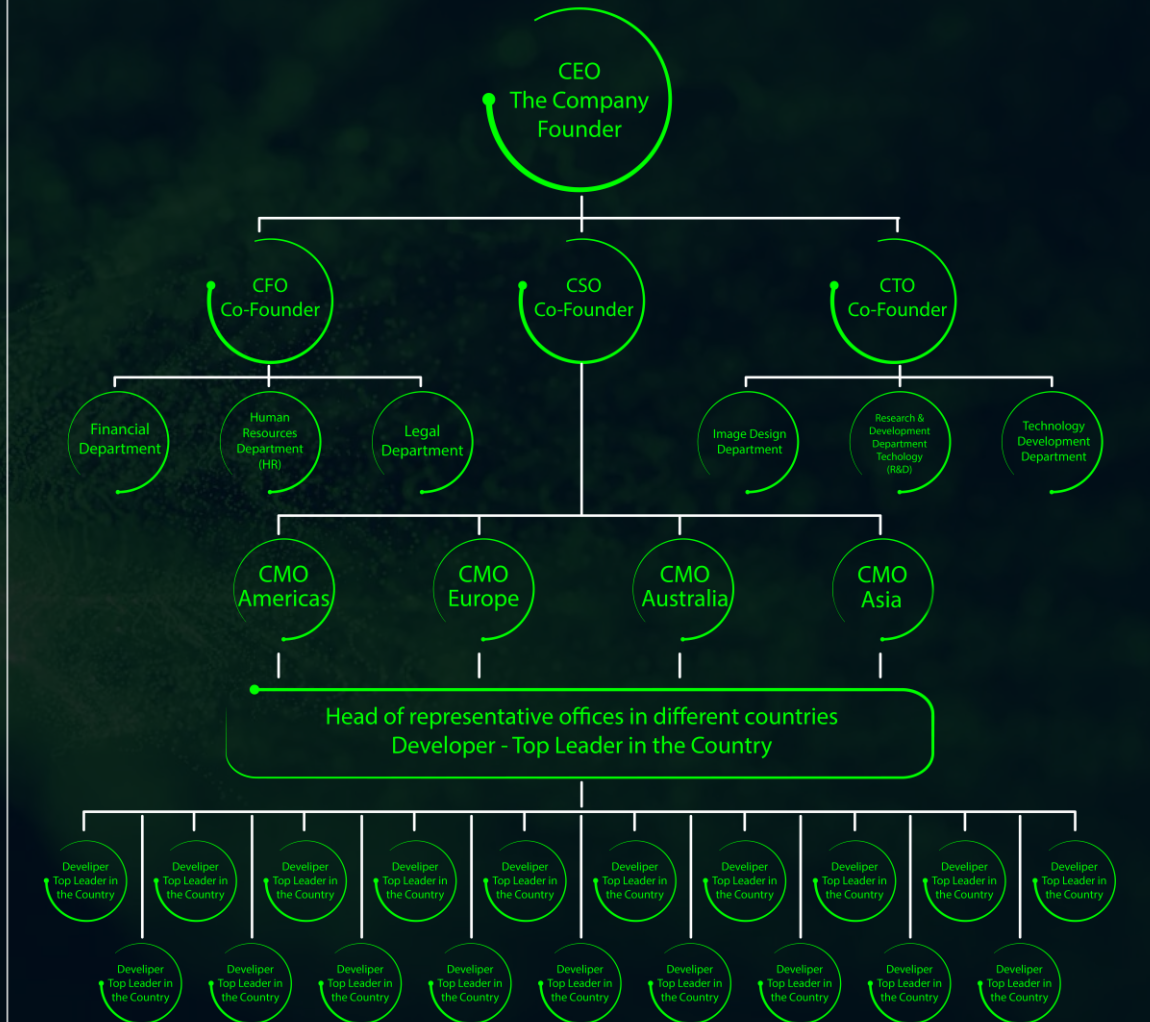

As the CEO and Founder of BTI GROUP, I believe that our team consists not only of top experts with extensive skills but also that BTI GROUP's Board of Directors is composed of excellent leaders, each possessing a solid technical background and a deep understanding of the crypto industry.

From guiding the development strategy to driving innovation and shaping the future, we are committed to leading BTI GROUP with a clear vision and the determination to overcome all challenges.

Together, we will build a sustainable and prosperous future for all.

ORGANIZATION CHART BTI GROUP

# THE BBACHAIN IS LAYER I

Maximum Processing  
Speed of

**100,000 TPS**

BBACHAIN achieves an impressive maximum processing speed of 100,000 transactions per second (TPS).

## EXTREMELY LOW TRANSACTION FEES

The BBACHAIN platform offers extremely low transaction fees, set at **0.000001 BBA** per transaction. This nominal fee equates to the ability to process one million transactions for just one BBA.

Time to create a new block 0.4 seconds. 1 second initializes 2.5 blocks limit of 40,000 transactions per block, Equivalent to 100,000 TPS.

# DETAILED SPREADSHEET FOR THE BBA SUPPLY

BBACHAIN is a Layer I Blockchain, forming the foundational layer of the BBACHAIN network. It is designed and operated independently, without depending on any other network.

BBACHAIN is equipped to support hierarchical applications, enabling various layers of applications and systems to interact with each other more effectively and efficiently.

The BBACHAIN technology platform provides an infrastructure that enables developers to build decentralized applications on its network.

The BBACHAIN technology is designed to accommodate any development platform and expand upon it. Concurrently, it integrates various ecosystems into a value chain that can easily communicate with each other within the same BBACHAIN Blockchain system.

# BTI WALLET

01

The BTI Wallet allows users to select the number of Recovery Phrases, such as 12-15-18-21-24. That is, when creating a new wallet, you can choose the number of Recovery Phrases you want.

03

The BTI Wallet enables quick transactions across geographical restrictions, supporting various cryptocurrencies, which facilitates easy and convenient conversions.

02

The BTI Wallet is extended, integrated, and supports many different blockchain networks on a single platform. Furthermore, various cryptocurrencies can be stored within this single BTI Wallet.

04

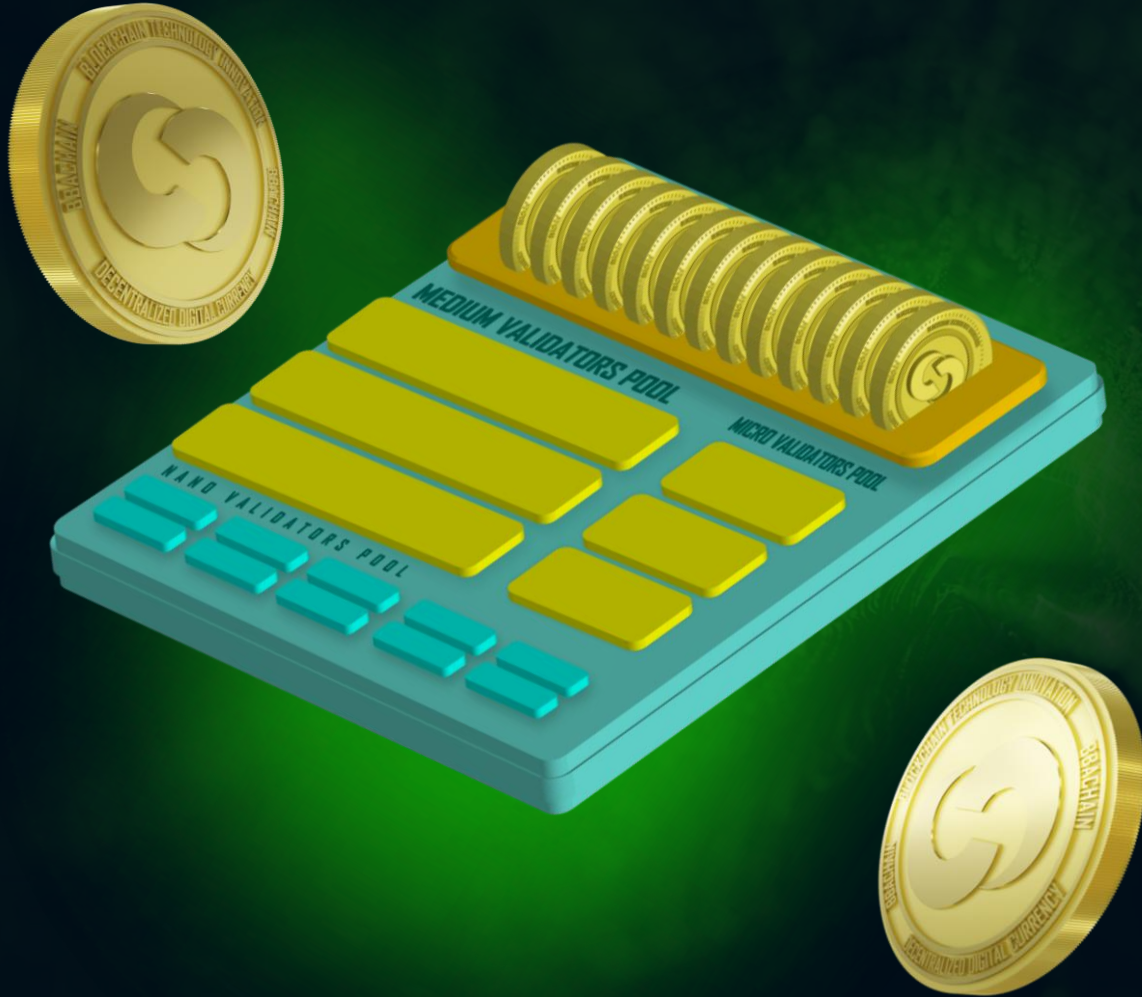

The BTI Wallet is available on mobile platforms such as iOS, Android, and Browser Extensions, enabling users to create new wallets, import existing wallets, and manage and store their crypto assets with ease and convenience.

05

The BBA will be integrated into the Ledger cold wallet to enhance safety for BBA holders.

# OUR MISSION STATEMENT

We are constantly striving for advancements in blockchain technology and breakthroughs in the field of cryptocurrency

We continuously endeavor to improve, innovate, and adapt in order to become the largest and most powerful technology Group in the Digital Industry.

We are prepared to support and share our experiences and achievements with organizations and individuals, fostering growth, prosperity, and mutual development.

We continuously offer solutions to attract partnerships, engagement, and contributions from the cryptocurrency market, ensuring that our technology platform and products continue to improve and develop.

The Derived of Half (DoH) algorithm halves the number of BBA rewards every 365.25 days/cycle (calculated from the genesis block). As a result, the number of BBA will be halved annually, creating scarcity and anti-inflation, helping BBA have value and sustainable growth.

**The development goal of BTI GROUP is to reach a market capitalization of over 100 billion EUR by 2032.**

# BTI SWAP'S NET PROFIT TARGET FROM 2028 IS \$500 MILLION AND FROM 2032 OVER \$1+ BILLION.

HERE IS THE ESTIMATED PROFIT TABLE FOR THE TOP 5 SWAP PLATFORMS FROM 2021 TO 2023:

Swap Platform	Estimated Profit (in millions USD)	Swap Platform	Estimated Profit (in millions USD)
Uniswap (UNI)	\$100 million - \$300 million (2021)	1inch (1INCH)	\$20 million - \$100 million (2021)
Uniswap (UNI)	\$200 million - \$500 million (2022)	1inch (1INCH)	\$30 million - \$150 million (2022)
Uniswap (UNI)	\$300 million - \$800 million (2023)	1inch (1INCH)	\$50 million - \$300 million (2023)
PancakeSwap (CAKE)	\$50 million - \$200 million (2021)	Curve Finance (CRV)	\$10 million - \$80 million (2021)
PancakeSwap (CAKE)	\$100 million - \$400 million (2022)	Curve Finance (CRV)	\$20 million - \$100 million (2022)
PancakeSwap (CAKE)	\$150 million - \$600 million (2023)	Curve Finance (CRV)	\$30 million - \$200 million (2023)
BTI SWAP (BTI)	\$50 million - \$150 million (2025)	SushiSwap (SUSHI)	\$30 million - \$150 million (2021)
BTI SWAP (BTI)	\$250 million - \$500 million (2028)	SushiSwap (SUSHI)	\$50 million - \$200 million (2022)
BTI SWAP (BTI)	\$800 million - \$1+ Billion (2032)	SushiSwap (SUSHI)	\$80 million - \$400 million (2023)

They provide a general view of the potential profit of the top Swap platforms based on potential growth over the mentioned years.

Please note that these figures are estimates and are not based on real-time data.

The estimated net profit of BTI SWAP from 2028 is \$500 million and from 2032 over \$1+ Billion.

# THE POTENTIAL OF CRYPTOCURRENCY EXCHANGES & TARGET OF BTI EXCHANGE

Binance peak 24 hour trading volume 2017 to 2021 (\$bn)		Binance annual crypto exchange volume 2017 to 2021 (\$bn)	
Year	Peak trading volume (\$bn)	Year	Annual exchange volume (\$bn)
2017	\$3 billion	2017	\$59 billion
2018	\$19 billion	2018	\$516 billion
2019	\$15 billion	2019	\$401 billion
2020	\$35 billion	2020	\$1,071 billion
2021	\$76 billion	2021	\$9,580 billion
Binance 24 hour trading volume peaked at \$76 billion in 2021, double its 2020 peak.		Over \$9 trillion was traded on Binance in 2021, 794% more than the previous year.	
Binance annual net income 2017 to 2020 (\$mm)		BTI EXCHANGE annual net income 2026 to 2032 (\$mm)	
Year	Net income (\$mm)	Year	
2017	\$7.5 million	2026	\$2.5 million
2018	\$850 million	2027	\$500 million
2019	\$570 million	2028	\$700 million
2020	\$900 million	2029	\$950 million
Binance last reported a profit of between \$800 million to \$1 billion in 2020. It has not published figures for 2021.		This is the expected net income of BTI EXCHANGE. Net income can change with the direction of the market.	
Binance annual revenue 2020 to 2021 (\$bn)		BTI EXCHANGE annual revenue 2026 to 2032 (\$bn)	
Year	Revenue (\$bn)		
2020	\$5.5 billion	2030	\$2.5 billion
2021	\$20 billion	2031	\$3.5 billion
		2032	\$5.5 billion
Binance generated \$20 billion revenue in 2021, a 263% year – on - year increase.		This is the expected net income of BTI EXCHANGE. Net income can change with the direction of the market.	

# WHY SHOULD YOU CONTRIBUTE IN BBA EARLY?

BBA price starts at \$0.2/BBA

BBA price is expected to be \$500/BBA in 2032

The development goal of BTI GROUP is to reach a market capitalization of over 100 billion EUR by 2032.

Fixed annual rewards(validators) 1,000,000 BBA.

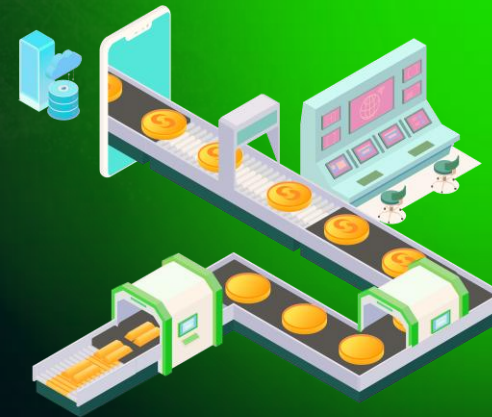

**BBA price starts at \$0.2/BBA**

# BBA COIN

Derived of Half (DoH) algorithm halves the number of BBA rewards by 365.25 days/cycle (calculated from the genesis block). Creating scarcity and anti-inflation, helping BBA have value and sustainable growth.

With BTI GROUP's community explosive development strategy combined with multi-platforms of ecosystems, BBA will be a form of digital asset favored by many tycoons, multi-millionaires, companies, businesses, and individuals. The entire cryptocurrency community trust, use, and hold.

## BTI GROUP'S - DEVELOPMENT ROADMAP

We are a passionate, experienced team with an innovative vision and steadfastness to a noble mission, determined to develop cutting-edge technology and create breakthrough products that advance society and improve people's quality of life. We are committed to continuing to explore the potential of blockchain technology, cryptocurrencies and bring innovative, breakthrough solutions to support businesses and promote the advancement of society.

This journey cannot be successful without the support and companionship of our Customers, Partners and the Community. We sincerely thank everyone for their trust, support and companionship, and promise to constantly improve and reach out on the path of development, promote the progress of society and bring benefits to the global community

# BBACHAIN ROADMAPS

## 2021

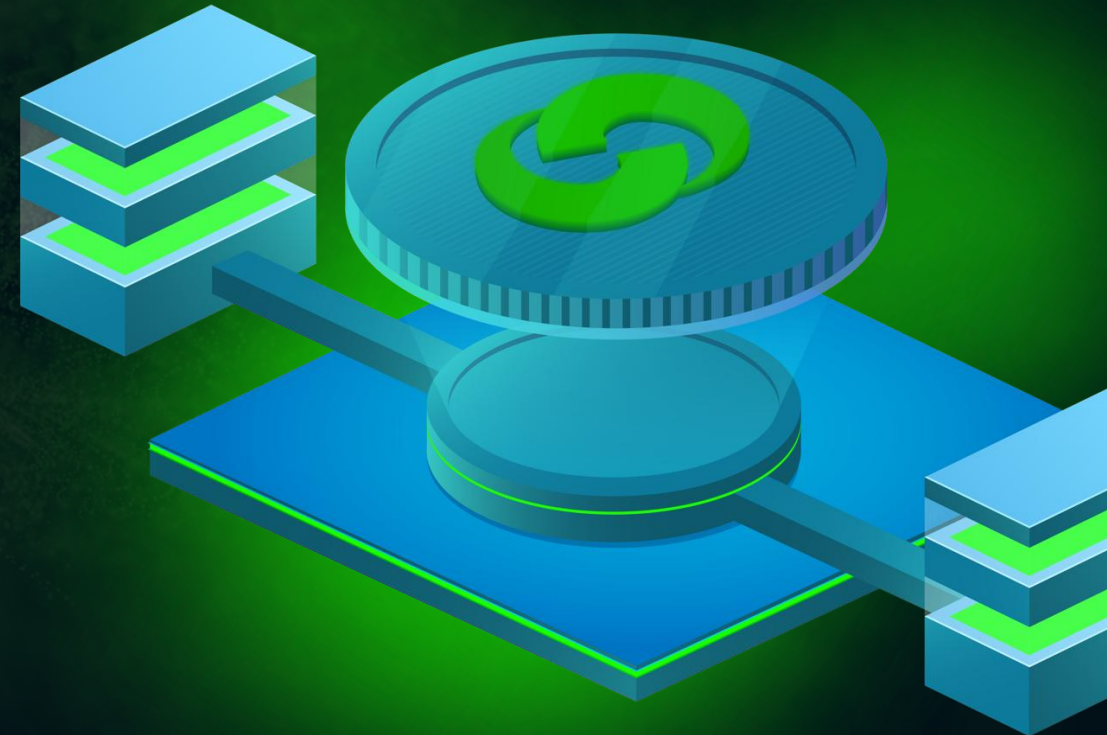

- 01 Established BTI GROUP (Blockchain Technology Innovation Group). In the Estonian capital Tallinn.
- 02 Completing the company apparatus (BTI GROUP). Research the cryptocurrency market and the development trends of blockchain technology platforms in the future.
- 03 Establishing an intensive research and development team on blockchain technology and advanced applications on the blockchain platform.
- 04 Research and develop BBACHAIN network successfully. With outstanding features such as high security, network scalability, and stability, faster transaction speed, consumes less energy, low transaction fees of almost zero, and transactions per second of up to 100,000. BBACHAIN is the number one solution in digital technology, helping grow up the cryptocurrency, and suitable for a wide range of users in many different fields.

# BBACHAIN ROADMAPS 2022

- 01 BTI Wallet release testing (Alpha) version on Google Play Store and Apple App Store.
- 02 Bringing ideas and practical development BBACHAIN Whitepaper. Developing and working to complete the BBACHAIN network.
- 03 Research and development BBA Scan supporting explore blocks and transactions on BBACHAIN. Bring transparency and clearly information to end-users and developers of BBACHAIN. End-users can find transparent information on the blockchain network such as wallet address, address balance, transaction history, transaction fees, and more.
- 04 Research, and develop BTI Wallet which integrates Web3 browser, allows users to interact with decentralized applications, supports NFTs management, minimalist logic, and design makes it easier to use BTI Wallet allows users to choose the length of an entropy sequence of 128 to 256 bits equivalent to 12, 15, 18, 21, and 24 recovery phrases (mnemonic). BTI Wallet integrates and support more different blockchains on a single platform.

# ROADMAPS

## QUARTER I AND II, 2023

01

Launch, develop, and complete testnet of BBACHAIN.

02

BTI Wallet beta test only supports testnet of BBACHAIN.

03

BBA Scan beta test only supports testnet of BBACHAIN.

04 Quick Token Generator tool research and development help developers create tokens on the BBACHAIN network quickly without any programming expertise. Tokens can be created instantly with an estimated success cost of just under \$1.

05 Research and development BBA Scan supporting explore blocks and transactions on BBACHAIN. Bring transparency and clearly information to end-users and developers of BBACHAIN. End-users can find transparent information on the blockchain network such as wallet address, address balance, transaction history, transaction fees, and more.

06 Research and development BTI Prices Center, a center of cryptocurrency data statistics. Allows end-users to look up important information about cryptocurrencies such as prices, price charts, market capitalization, and trading volume, monitor market movements, learn about new projects, market analysis tools, and more.

# ROADMAPS

## QUARTER III AND IV, 2023

01

Launch BBA Scan production supports mainnet and testnet of BBACHAIN.

02

Launch BTI Wallet production supports mainnet and testnet of BBACHAIN.

03

Release the stable version (production) of BTI Wallet on Google Play Store.

04

Establishing multi-channel communication, spreading the BBACHAIN technology platform to individuals, communities, and blockchain organizations around the world. At the same time, the media strongly promoted the launch event of BBACHAIN technology platform (GENESIS BLOCK LAUNCHING) in Budapest - Hungarian.

05

Launching the mainnet, the first block "GENESIS BLOCK" was created marking the beginning and breakthrough of BBACHAIN technology platform and BBA.

06

Organized event of BBACHAIN technology platform (GENESIS BLOCK LAUNCHING) in Budapest – Hungary.

# ROADMAPS

## QUARTER II AND IV, 2023

- 
- 07 Setting up the Cloud Validators Cluster - Cloud Validators Pool. Sharing BBACHAIN technology with the worldwide community, helping the global community participate in the Cloud Validators Pool and own the BBA.
- 08 Release the stable version (production) of BTI Wallet on the Apple App Store.
- 09 Research, integrate, and test BBACHAIN into Offline Wallet. Helps users effectively prevent unauthorized intrusion and avoid attacks caused by hackers, helping to increase safety for BBA holders.
- 10 Research and development of BTI NFT Marketplace. Enable end-users to create their favorites and collect collections, items for sale, exchange and trade their NFT assets on the BTI NFT Marketplace. NFT Market is a segment in the cryptocurrency market designed to trade non-fungible assets in the form of Tokens (NFTs).

# ROADMAPS

## QUARTER II AND IV, 2023

- 11 Research and development exchanges BTI Exchange, where contributors, holders, and traders do activities like Buy and Sell their digital assets. With criteria such as security, encryption of user information and data, fast transaction processing speed, friendly user interface, variety of currency pairs, and attentive and dedicated customer support.
- 12 Recruiting and training high-quality human resources globally, serving the BTI GROUP's long-term and sustainable development strategy.
- 13 Promoting marketing campaigns on social networking platforms, helping organizations and businesses to digitally transform on BBACHAIN.
- 14 Open representative offices across continents and support open offices in countries that accept and strongly develop BBACHAIN technology platform.

# ROADMAPS

## QUARTER I AND II, 2024

1. Launch the BTI Exchange beta version and integrate more new technology platforms.
2. Launch of Quick Token Generator Beta version rapid token generation tool.
3. Decentralized exchanges beta version launch BTI Swap.
4. Decentralized exchanges beta version launch BTI Prices Center.
5. Research and development of payment system BBA Pay Adapter. Integrate BBA in payment cards, issue payment cards, and link with partners globally. End-users who have BBA in their Wallet can buy goods at e-commerce sites, stores, and shopping malls. However, this payment card will not be compatible with some countries and local laws. Users need to comply with applicable laws in their country.
6. Stable coin research and development BTI Stablecoin EUB. EUB is a digital currency developed on BBACHAIN and has a stable value, the value of EUB is pegged to the price of EURO; 1EUB=1EURO. EUB as a means of payment and transaction in the ecosystem of BTI GROUP. At the same time, EUB is a safe haven whenever the market has strong fluctuations.
7. Decentralized exchanges beta version launch BTI NFT Marketplace.
8. Develop Chrome/Firefox Extension of BTI Wallet running on a Web browser.
9. Open more offices, support opening offices in accepting countries, and strongly develop BBACHAIN network and ecosystems of BTI GROUP.
10. Promote marketing campaigns on social networking platforms around the world.

# ROADMAPS

## QUARTER III AND IV, 2024

1. Developed and put into operation a quick token generator tool Quick Token Generator, which helps end-users create tokens on the BBACHAIN network with an estimated cost of less than \$1.
2. Develop, connect, and integrate BBA to Offline Wallet. BBA will be integrated into Offline wallets like Ledger or Trezor to increase safety for BBA holders. Offline Wallet is isolated from the internet and contains chips and layers of high security.
3. Development and official operation of the decentralized exchange BTI Swap.
4. Development and official operation of the BTI Prices Center.
5. Create Big Airdrops programs, throughout the cryptocurrency market to promote, and attract users to know, and use utility platforms, and ecosystems of BTI GROUP
6. Open more offices in continents and countries using the technology platforms and ecosystems of BTI GROUP. Promote marketing campaigns on social media platforms around the world.
7. Reviewing an overview of the actual needs of the entire market, in order to make objective and accurate judgments and assessments of the necessary elements of the market. Will consider listing BBA on exchanges and CoinMarketCap
8. Research about integrating government databases with the BBACHain blockchain while ensuring data privacy.
9. Explore the feasibility of creating a dedicated Layer 2 solution for each country to enhance security and scalability in the implementation of BTI Global.

# ROADMAPS

## QUARTER I AND II, 2025

1. Develop an official operation of the BTI Exchange cryptocurrency exchange. BBA officially becomes the base currency pair of BTI Exchange. BBA is priced and converted to all other coins on the BTI Exchange.
2. Research and find out the actual needs of the market, establish and put the fund into operation BTI contribution Funds. Directly raise capital from large contribution funds for new start-up projects on the BBACHAIN technology platform. Support capital, knowledge, and experience for new projects, and new technologies developed across all ecosystems of BTI GROUP.
3. BTI Wallet allows owners to contribute BBA for staking on the wallet, to earn rewards, and to help stabilize and improve the security of BBACHAIN.
4. Support to list potential coins develop on BBACHAIN into BTI Exchange. At the same time, listed on the BTI Prices Center cryptocurrency data statistics center.
5. Strengthen linkages with major partners in the field of technology application, and expand market share in the field of cryptocurrencies and exchanges.
6. Support businesses and users to generate tokens, quickly and separately running on BBACHAIN. In order to support and promote businesses to digitize and integrate with the world.
7. Open more offices, support opening offices in accepting countries and strongly develop BBACHAIN network and ecosystems of BTI GROUP. Promote communication, and create marketing campaigns on social networking platforms around the world.
8. Develop a robust security and privacy framework to be implemented in BTI Global to ensure government data integration does not jeopardize private data. Implement advanced encryption techniques and privacy-preserving protocols.
9. Establish partnerships with governments, technology companies, NGOs, and other stakeholders interested in promoting a more democratic and accountable world. These partnerships will be crucial for providing the necessary resources, expertise, and support for BTI Global's development.

# ROADMAPS

## QUARTER III AND IV, 2025

1. Testing and piloting the payment system BBA Pay Adapter, connecting payment card to BTI Wallet. Towards issuing payment cards and linking with global partners.
2. Initial and launch BTI Stablecoin EUB on the BBACHAIN testnet. EUB is a digital currency developed on the network of BBACHAIN, as a means of payment and transaction in the ecosystem of BTI GROUP.
3. Develop and launch the official BTI NFT Marketplace, which allows content creators, to price and sell their NFT collections.
4. Support listing new coins on the BTI Exchange, and listing on the BTI Price Center cryptocurrency data statistics center.
5. Strengthen linkages with major partners in the field of technology application, and expand market share in the field of cryptocurrencies and exchanges.
6. Integrate the exchange system BTI Swap, BTI NFT Marketplace into the BTI Exchange cryptocurrency exchange. In order to enhance user convenience and usability, increase the extensibility of BTI Exchange. All user needs are on a single BTI Exchange account.
7. Open more offices, support opening offices in accepting countries and strongly develop BBACHAIN network and ecosystems of BTI GROUP. Promote communication, and create marketing campaigns on social networking platforms around the world.
8. Provide documentation, guidance, and support for Shares holders and strategic contributors of the company to set up and operate Validator Nodes themselves.
9. Develop a full-scale prototype of BTI Global, including the Layer 2 solution for country-specific implementations, smart contracts, identity verification systems, and decentralized infrastructure. This design should take into consideration scalability, security, and ease of use.
10. Create a prototype of BTI Global to test its functionality and identify any issues that need to be resolved before the platform can be deployed on a larger scale.

# ROADMAPS

## QUARTER I AND II, 2026

1. Develop and officially put into operation the payment system BBA Pay Adapter. Cryptocurrency users who have BBA in their wallets can buy goods and services at e-commerce sites, stores, and commercial centers. Support BBA for frameworks such as Laravel, WordPress, Nestjs, games utils, e-commerce, etc.
2. Initial and launch BTI Stablecoin EUB on the BBACHAIN mainnet. EUB is a digital currency developed on BBACHAIN and has a stable value, the value of EUB is pegged to the price of EUR; 1EUB=1EURO. EUB as a means of payment and transaction in the ecosystem of BTI GROUP. At the same time, EUB is a safe haven whenever the market has strong fluctuations.
3. BTI contribution Funds will support capital and directly raise capital for startups on BBACHAIN, and support communication to the community of BTI GROUP. Mentoring and providing solutions for startups that are always on the right track for sustainable and successful development.
4. Building and establishing strategic partners globally in the field of blockchain technology and ancillary products in the cryptocurrency industry.
5. Improve technology, and expand user utilities on ecosystem platforms. Especially always updating, improving, and innovating technology on all platforms of BTI GROUP.
6. Open more offices, support opening offices in accepting countries, and strongly develop BBACHAIN network and ecosystems of BTI GROUP.
7. Launch the BTI Global pilot platform in the private sector, allowing companies and institutions to use it for internal decision-making and voting processes. Monitor usage and performance, and gather feedback to make necessary adjustments.
8. Begin formal discussions with national governments to explore BTI Global pilot projects and secure agreements with at least one national government to conduct a pilot test.
9. Continue to build partnerships with additional governments and international organizations in relation to BTI Global solution

# ROADMAPS

## QUARTER III AND IV, 2026

1. Implement the BTI Global platform in a pilot test with a selected national government and ensure all security, privacy, and functionality aspects are thoroughly tested.
2. Conduct beta testing of the BTI Global platform with the pilot government and make necessary adjustments based on feedback and performance metrics.

# FROM 2027 ONWARDS

1. Constantly developing, regularly improving, and updating new technologies, enhancing features and performance for technology products, and developing and expanding the ecosystem of BTI GROUP.
2. Building and strongly developing new ideas to serve the ecosystem of BTI GROUP, in order to increase the value of the BBA.
3. Promote and make BTI Exchange the largest, most popular cryptocurrency exchange, with the largest number of users and trading volume. Bringing BTI Exchange to the top of the world's most secure and convenient cryptocurrency exchanges.
4. Promote and make BBA the most popular coin in the crypto market: listed at the top on the crypto statistics page.
5. Promoting and growing, the BBACHAIN network to become the most commonly used blockchain in the digital industry.
6. Developing, covering the "Customer Support" office globally. Focus on training regular and professional human resources in order to bring customers and users the best, most advanced, most secure, and friendly service and technology experiences.
7. BTI GROUP strives to be a pioneering technology corporation, always leading in the field of digital technology and blockchain technology.

# FROM 2027 ONWARDS

8. Expand the BTI Global platform's implementation to additional government entities and integrate more advanced features and functionalities.
9. Prepare for the national rollout of the BTI Global platform in the pilot country and conduct extensive training sessions for government officials and citizens. Ensure all technical and operational aspects are ready for a full-scale launch.
10. Conduct the first pilot test of national elections using the BTI Global platform in the pilot country. Monitor the process closely to ensure transparency, security, and efficiency. Gather detailed feedback to make any final adjustments.
11. Roll out the BTI Global platform for full-scale use in the pilot country for all government decision-making processes. Conduct alpha testing in additional countries to prepare for their national elections. Continue to gather feedback and improve the platform.
12. Begin the global expansion of the BTI Global platform to additional countries. Secure partnerships and support from more national governments.
13. Conduct pre-election testing in new countries preparing to use the platform for their national elections. Ensure all systems are fully functional and secure. Provide extensive support and training to all stakeholders.
14. Successfully conduct the first fully blockchain-based national elections in multiple countries

Roadmaps are a visual and general summary, direction, and strategic planning of BTI GROUP. Roadmaps are also a bridge to connect global contributors and the development team.

Roadmap timelines are approximate and tentative. Our team recommends events on Roadmaps quarterly and annually based on actual market fluctuations so we can innovate, be adaptive, and be perpetual.

Roadmaps help our vision as well as coherence, and continuity, throughout our development. The events listed in Roadmaps are big and strategic events of BTI GROUP.

# **BLOCKCHAIN TECHNOLOGY INNOVATION GROUP**
